

Dear Friends and Colleagues in the GIS field,

My name is Adam Aull, GIS Manager of the City of Danville, Illinois. It has been my pleasure to work towards a newly created GIS enterprise system for Vermilion County. I have assisted in the development of a GIS Consortium and the selection of a GIS vendor who is currently building the system.

The County is now in a position, both timely and financially, to hire a GIS Coordinator. The job description will be posted with various entities, i.e. newspapers and GIS job sites. In addition to those efforts I have attached the "Notice of Vacancy" job summary. I feel that through a network of GIS professionals and affiliated persons, this position will obtain much more exposure. Word-of-mouth is a great way for information to pass along, particularly if the job description is not posted in the correct location for the major of job seekers to find it.

I am hoping that by allowing you to be made aware of this opening, potential candidates may learn of this opportunity find this "Notice of Job Vacancy" at Vermilion County, Illinois.

Sincerely,

Adam Aull
